

RAPIDLINE

STANDPIPES

Rapidline Un-metered standpipes are engineered to perform exceptionally well in challenging environments. Made from high-quality aluminium with a gunmetal base, these standpipes are constructed to endure rigorous use and harsh conditions. Their lightweight yet strong construction ensures reliable performance while being easy on the operator.

Our standpipes are compatible with all standard spring hydrants throughout Australia.

CODE	DESCRIPTION	LENGTH	WEIGHT
UMSP25-BSP-S	BSP Outlet 25mm	940mm	7.2 Kg
UMSP65-MFB-S	MFB Outlet 65mm Short Version	940mm	7.4 Kg
UMSP65-MFB-L	MFB Outlet 65mm Long Version	1100mm	7.9 Kg
UMSP65-QRT-S	QRT Outlet 65mm Short Version	940mm	7.4 Kg
UMSP65-QRT-L	QRT Outlet 65mm Long Version	1100mm	7.9 Kg
UMSP65-CFA-S	CFA Outlet 65mm Short Version	940mm	7.4 Kg
UMSP65-CFA-L	CFA Outlet 65mm Long Version	1100mm	7.9 Kg

Finish	Unpainted
Body	Aluminium (65mm) Galvanised Steel (25mm)
Base	Gun Metal
Spindle	Stainless Steel
Base Seal	EPDM
Repairable	Yes
Swivel Head	65mm Only

IMPORTANT INFORMATION

You may need to get approval from your local water authority to use a Standpipe. All authorities have different regulations and requirements. Please check with your local Authority prior to purchasing.

The warranty covers manufacturer defects for 12 months from the purchase date of the standpipe. Misuse, such as attaching bars to the hydrant for removal or hammering the spindle, will nullify the warranty. Refer to the sticker on the standpipe for the correct operating instructions.
