

PORTAL & MOBILE APP

Next Century's Web Application and Mobile Application are designed for ease of use ensuring easy setup and reliable installation of our hardware. From the portal you can manage installations and alerts as well as a host of reporting features.

GATEWAY GW4

The NextCentury 5G Cellular Gateway introduces the next generation of superior wireless utility management. It includes simple plug-n-play setup and facilitates the communication of thousands of wireless devices on a single property. Seamlessly compatible with all NextCentury Repeater and Transceiver models. This cloud-connected Gateway is easily and securely connected to the Internet.

- 10,000 Connections
- WiFi, LAN & 5G connectivity
- Proprietary Protocol
- 918-926MHz Band
- Bi-Directional Encryption
- Smart Frequency Hopping
- Self Healing Network

REPEATER RE4

The Next Century RE4 Repeater is a powerful wireless device that extends and amplifies network coverage. Dual antennas and smart frequency hopping help mitigate interference in even the most challenging environments.

With the longest range in its class and simple plug-n-play setup.

- 5,000 Connections
- Proprietary Protocol
- 918-926MHz Band
- Bi-Directional Encryption
- Smart Frequency Hopping
- Self Healing Network

TRANSCEIVERS

The NextCentury TR4 Transceiver introduces the next generation of superior wireless performance. Featuring Meter+™ technology, this Transceiver offers broad meter compatibility in a single model. The TR4 pairs with most pulse meters and virtually all encoded meters utilizing Neptune, Sensus, or AMCO/Elster protocols.

Engineered for long maintenance-free operation, the TR4 provides hourly-read precision with a 10-year battery life.

TR4

- 10 Year Battery Life
- Replaceable Battery
- 918-926MHz Band
- Superior Penetration
- Individually Barcoded

TR4-X

- 10 Year Battery Life
- Outdoor IP68 Rated
- Replaceable Battery
- 918-926MHz Band
- Superior Penetration
- Individually Barcoded

TR4-P

- Designed for pit lid Installation
- Outdoor Use
- 10 Year Battery Life
- Potted -IP68 Rated
- 918-926MHz Band
- Superior Penetration

METER DISPLAY

The NextCentury RR4 Remote Reader are advanced meter reading solutions which provide a high-visibility remote display of one or two utility meters.

- 15+ Years Battery Life
- Replaceable Battery
- Dual Meter Connection
- Water, Gas and Electricity Compatible
- Program with Smartphone
- Program in Existing Meter Reading.
- Pulse output function with single meter mode.
